

## **Material Reuse**

By reusing materials on-site, donating and/or selling salvageable items, you can cut waste costs and reduce material expenses. Determine the savings and cost of reusing, donating, and/or selling salvageable materials. The following are just a few of the materials that can be salvaged and/or donated locally:

Appliances, block, bricks, carpeting, doors, flooring, lighting fixtures, metal framing, pipes, shelving, tile, windows, bathroom fixtures, cabinets, dimensional lumber, ductwork, insulation, marble, paneling, OSB & plywood, siding, trim, wood beams.

## **Job Site Recycling**

Recycling construction materials helps save money by cutting disposal costs. It also reduces waste going to the landfill and attracts clients who value environmental responsibility. Other benefits include a cleaner, safer site and improved community relations. In Scottsdale alone, 26,438.27 tons of waste was recycled in the year 2001.<sup>1</sup> Follow these steps to set up a successful, cost-effective recycling program for your job-site:

- Decide what materials will be recycled on the project and determine which wastes subcontractors will be responsible for recycling.
- Designate someone to be responsible for implementing and monitoring a waste disposal and recycling program.
- Include requirements for on-site recycling in all project documents and subcontracts.
- Clearly designate the recycling bins. Post lists of what is and what is not recyclable.
- Place garbage and recycling bins near each other, and close to the point of waste generation but out of the traffic pattern.
- As a means to prevent contamination of the recycling bins, consider placing the general trash container closest to the construction site. Or consider locking the recycling bins or locating them in a locked area.
- Discuss waste handling requirements with crew and subcontractors prior to beginning a project.
- Periodically check bins for contamination and check the wastes in the garbage dumpsters to see if recyclables are being thrown away.

## Material Reuse Outlets

- \* Stardust Building Supplies (2 locations)  
4240 W. Camelback Road  
Phoenix, AZ 85019  
(602) 424-1575  
Contact – Chad Carlton  
1720 W. Broadway, Suite 101  
Mesa, AZ 85202  
(480) 964-2212  
Contact – Shannon Carlton  
Non-profit that operates a store open to the general public for new and used building materials. Proceeds are used to repair, build and renovate housing for families in need throughout the Valley. Accept any building materials or products that would not be considered a hazardous waste. Builders including, Del Webb, SunCor, and GlenAlden Homes, donate excess and slightly damaged building materials to Stardust. Call for more information.
- \* The Eco-Logic Foundation, Inc.  
5025 North Central Avenue #163  
Phoenix, AZ 85012  
(602) 997-1900  
Contact – Linda Eales  
The Eco-Logic Foundation, Inc. acts as a collector of and clearinghouse for reusable building materials and manages the distribution of the goods to local charities and non-profit organizations. Call for more information.

## Material Recycling Outlets

### 1. Cardboard and Paper

- \* ABCO Recycling and Waste Management Services  
9637 N. Cave Creek Rd.  
Phoenix, AZ 85020-2117  
(602) 943-9676  
Contact – Charlotte D'Andrea  
Cardboard and paper. Call for specific information and services.
- \* Arizona Environmental Recycling  
3501 Northwest Grand Ave.  
Phoenix, AZ 85019  
(602) 246-0923  
Contact – Phyllis Hinson  
Cardboard and paper. Call for specific information and services.
- \* Arizona Pacific Pulp & Paper, Inc.  
302 S. 28<sup>th</sup> St.  
Phoenix, AZ 85034  
(602) 220-9200  
Contact – Bill Toby  
Cardboard and paper. Call for specific information and services.
- \* Champion Waste and Recycling  
2550 W. Coronado  
Phoenix, AZ 85009

(602) 353-9411  
Contact – Ted Thompson  
Cardboard and paper. Call for specific information and services.

- \* Friedman Recycling  
3640 W. Lincoln St.  
Phoenix, AZ 85009  
(602) 269-9324  
Contact – David Friedman  
Cardboard and paper. Call for specific information and services.

- \* McKinley Paper Company  
425 S. 15<sup>th</sup> Avenue  
Phoenix, AZ 85007-3397  
(602) 252-7484  
Contact – Mark Balser  
Cardboard and paper. Call for specific information and services.

- \* Weyerhaeuser  
301 S. 30<sup>th</sup> Street  
Phoenix, AZ 85034  
(602) 302-6942  
Contact – Laura Andrejko  
Cardboard and paper. Call for specific information and services.

## 2. Lumber

- \* Friedman Recycling  
3640 W. Lincoln St.  
Phoenix, AZ 85009  
(602) 269-9324  
Contact – David Friedman  
Recycles lumber. Call for specific information and services.

- \* Ifco Systems  
250 S. 59<sup>th</sup> Avenue  
Phoenix, AZ 85043  
(602) 278-2700  
Contact – Ted Shepherd  
Wood waste recycler. Call for specific information and services.

- \* Horizon Recycling  
3330 W. Broadway Road  
Phoenix, AZ 85041  
(602) 268-8849  
Contact – Daniel Musgrove  
Wood waste recycler. Call for specific information and services.

- \* Western Organics Lawn and Garden Supply, Inc.  
2807 S. 27<sup>th</sup> Avenue  
Phoenix, AZ 85009

(602) 278-6703

Contact – Lloyd Porter

Wood waste recycler; accept wood up to 6" wide x 60" long. Call for specific information and services.

### 3. Metal

\* ABCO Recycling and Waste Management Services

9637 N. Cave Creek Rd.

Phoenix, AZ 85020-2117

(602) 943-9676

Contact – Charlotte D'Andrea

Various types of metal. Call for specific information and services.

\* American Metals Co.

740 W. Broadway

Mesa, AZ 85210

(480) 834-1923

Contact – Craig Kennedy

Various types of metal. Call for specific information and services.

\* Arizona Scrap Iron & Metal, Inc.

4333 S. 7<sup>th</sup> Ave.

Phoenix, AZ 85022

(602) 252-8423

Contact – Mike Galan

Various types of metal. Call for specific information and services.

\* Davis Salvage Co.

3337 E. Washington St.

Phoenix, AZ 85034

(602) 267-7208

Contact – Dave Barker

Various types of metal. Call for specific information and services.

\* Friedman Recycling

3640 W. Lincoln St.

Phoenix, AZ 85009

(602) 269-9324

Contact – David Friedman

Various types of metal. Call for specific information and services.

\* Glendale Iron and Metal

6210 N. 55<sup>th</sup> Ave.

Glendale, AZ 85301

(623) 931-3701

Contact – Kraig Kosier  
Various types of metal. Call for specific information and services.

- \* Phoenix Metals  
3210 S. 19<sup>th</sup> Avenue  
Phoenix, AZ 85009  
(602) 253-3275  
Contact – John Semkow  
Various types of metal. Call for specific information and services.

- \* Phoenix Metal Trading, Inc.  
610 S. 19<sup>th</sup> Avenue  
Phoenix, AZ 85009  
(602) 257-4660  
Contact – Barry Tuttleman  
Various types of metal. Call for specific information and services.

- \* Arizona Recycling Corporation  
400 S. 15<sup>th</sup> Avenue  
Phoenix, AZ 85007  
(602) 258-5323  
Contact – Sal Brown  
Various types of metal. Call for specific information and services.

#### 4. Carpet and Carpet Padding

- \* A-1 Planet Recycling  
201 W. Hilton  
Phoenix, AZ 85003  
(602) 258-5600  
Contact – Paul Santantonio  
All types of new and used carpet and foam padding. Call for specific Information and services.
- \* Waste Not Recycling Centers  
1702 S. 19<sup>th</sup> Avenue  
Phoenix, AZ 85009  
(602) 252-7712  
Contact – David Lafountain  
All types of new and used carpet and foam padding. Call for specific information and services.

#### 5. Demolition, Salvage, Deconstruction

- \* Davis Salvage Co.  
3337 E. Washington St.  
Phoenix, AZ 85034  
(602) 267-7208  
Contact – Dave Barker  
Various types of metal. Call for specific information and services.

- \* Apache Reclamation & Electronics, Inc.  
313 W. Apache St.  
Phoenix, AZ 85003  
(602) 254-0613  
Contact – Darin Holt  
Various types of metal and electronics. Call for specific information and Services.

---

The City of Scottsdale Green Building Program was established in 1998 as a voluntary builder program to reduce the environmental impact of building. The concept of green building involves a whole-systems approach, which uses design and building techniques to minimize environmental impact and reduce energy use while improving the health of its occupants. Scottsdale's program rates homes in the areas of site, energy, building materials, indoor air quality, water, and solid waste. The program offers development process incentives to influence builder design and product choices.
